Safeway Monopoly Game Tickets The game tickets come with 2 perforated edges that you (top and bottom) to reveal your game ticket. You will either get a cash voucher on a product on Safeway, or an instant winning ticket, or an online game code. You can find the square 2D barcode on the back of the game marker portion of the game tickets. You can scan this QR barcode with Shop, Play, the Win app to keep track of the game markers you've received for your board. This will make it faster to check if you already have a game marker, and in that case you can simply throw the duplicates away, or if you play multiple boards, you can put the duplicates on the secondary board. This does not replace the need to physically stick the markers to the board for the actual prizes. Safeway Monopoly Shop, Play, Win App: The absolute easiest way to play Monopoly is to download Shop, Play Win app from Google Play for Android or iTunes App Store to quickly and easily manage all your online game chips. Be sure to log in with your Safeway Just for U account. If you don't have an account, just sign up, and you can scan the online game barcodes to determine if you're an instant winner and also track your game markers through the app. There are 2 codes to scan on the game tickets. The first code is a 2D QR code on the back of the Monopoly tickets of the game marker to track your game chips. On the part of the ticket that says, Online Game Piece, you can scan the long barcode to if you have won any tokens that you can use for prizes This is what the screen looks like in Monopoly Monopoly Pay the Win app when scanning the 2D barcode to track your game markers. It shows you what you have in the game markers and how many of each prize you have collected out of the number needed to win. The app also tells you which game markers are duplicates, so you don't have to spend time checking your board for that piece. My personal experience is that duplicates still appear as new game pieces sometimes, but I have not yet seen new game pieces come up as duplicates in the app. You will quickly notice that there are some rare Monopoly game pieces that you need to get to score the big prizes. If you have one of those rare pieces, feel free to comment below to find someone who may have a rare piece you want to share or share a prize.
